Gary,

Would you please answer this letter from Chris Longbottom. He can also get the picture through you (but I'd be careful of labelling in the nails because of customs).

Jerry phoned me about his possibilities of getting it TVed in NYC. I encouraged greatest care, alerting station to possible legal consequences and then not without proper commentary, which I offered to make. I also suggested he suggest they have a Commission rep or supporter there at the same time (which will not happen but can,would get aired). I think it wrong just to put it on the air. I also suggested making stills to show at same time. Let you know.

Pls nite Bringuier parts of enc. ltr to Dick. I have Trohan story. Typical ChiTrib. Brin is to be on TV in DC and I've said I'll answer. But I should read book first. Maybe Bud said he's getting for me. I'll air his racism-I have thepamphlet and the Hargis stuff from COUP. But I'll not have time for real preparation. He isn't worth it. Don't know when this will be. Must also arrange sound tape show. Station has no taping facilities! I did seven shows on it without response, not a single letter! Some TV!

H
